The World's Largest Acoustic Pods Collection

In Q1 2025, we will proudly introduce Modular Pods – the largest and most versatile collection of acoustic pods ever designed. Powered by our patent-pending technology, Modular Pods will revolutionize the office pod market by bringing the full benefits of modularity to the world of acoustic pods.

The groundbreaking collection will feature over 30 acoustic pods, of 11 unique sizes and each offering multiple configurations of wall types and fit-outs. Each pod will be available in two heights: 2380 mm or 2250 mm. Our Modular Pods will offer a choice of acoustic class with options for Class A and Class B sound insulation in accordance with ISO 23351-1.

Modular Pods will also be the first office pod family to fully prioritize universal accessibility, ensuring every pod can accommodate users with mobility impairments.

This document offers a preview of selected pods from the Modular Pods collection. We hope it will spark ideas and inspire your projects.

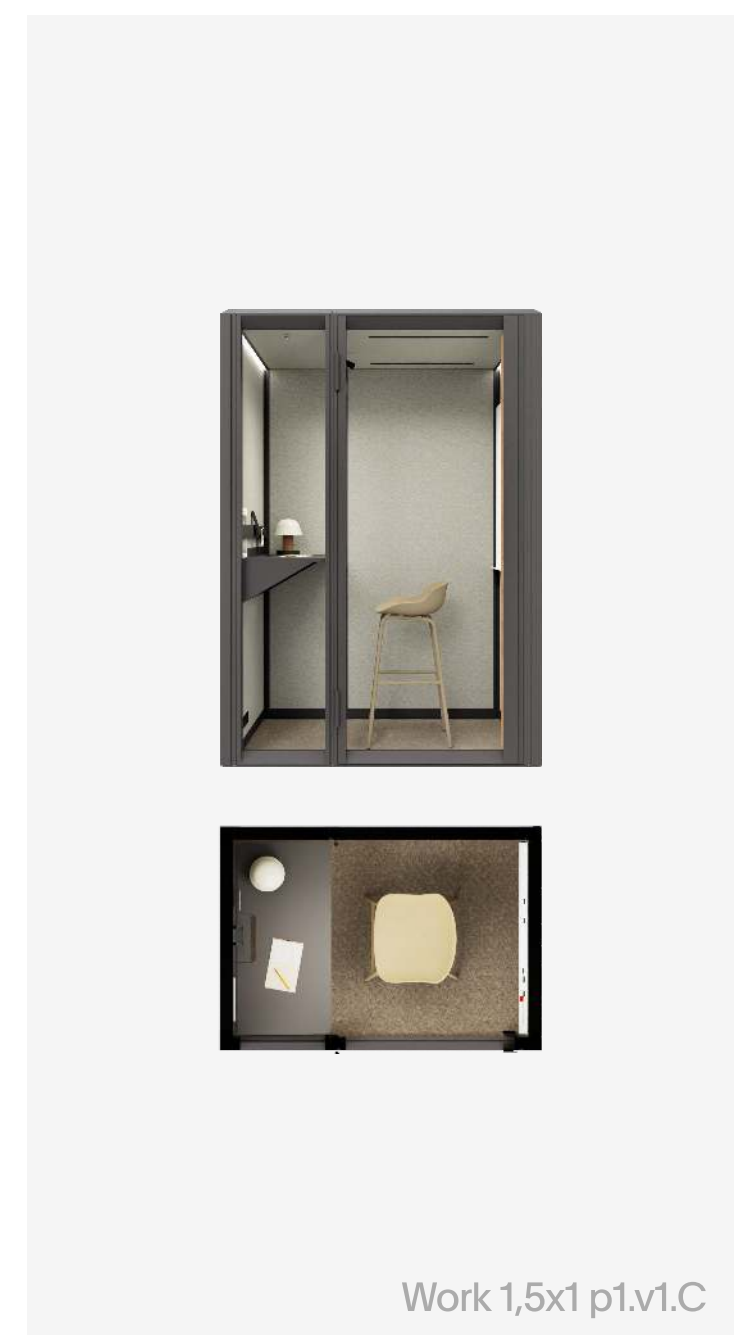

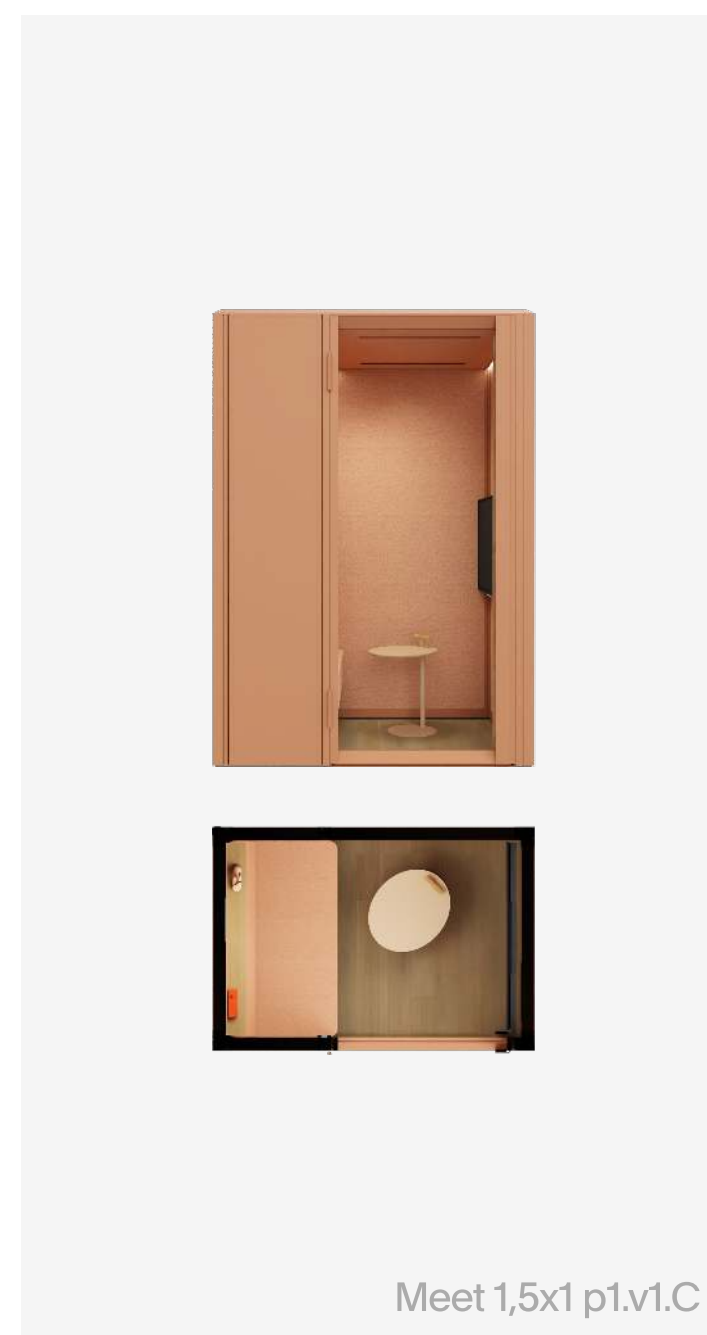

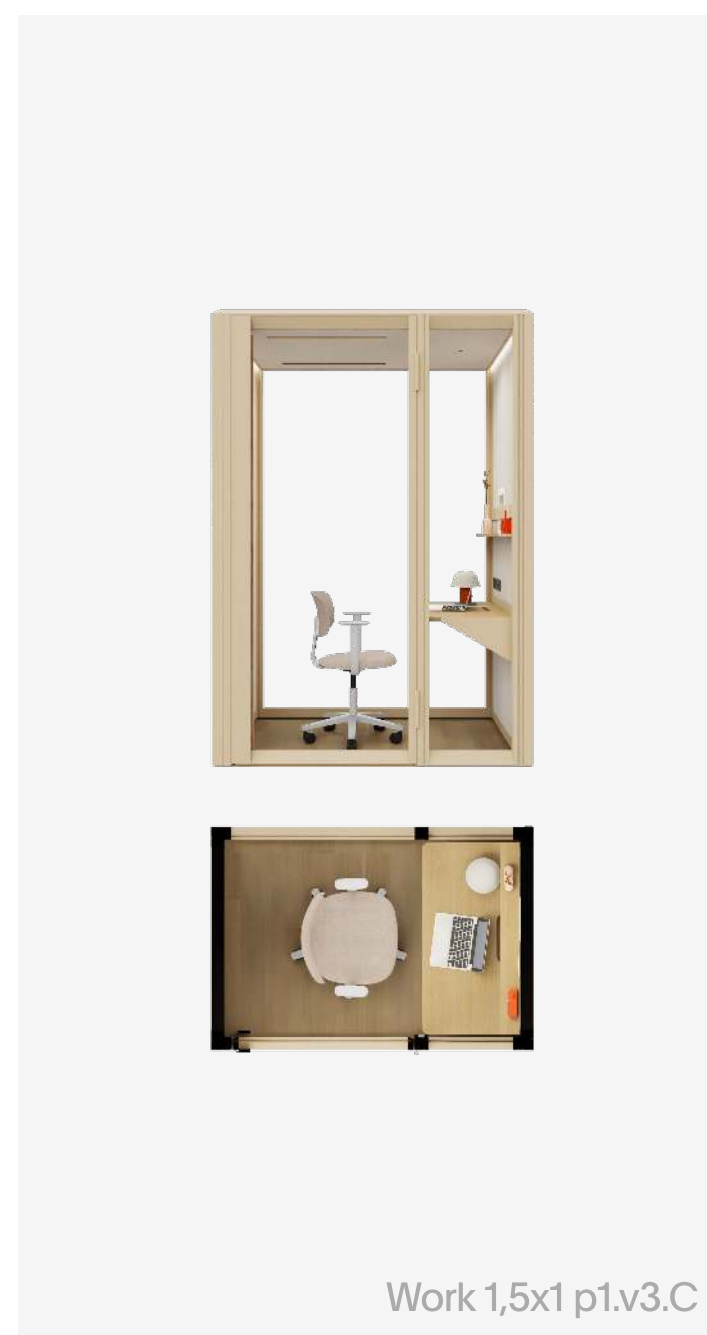

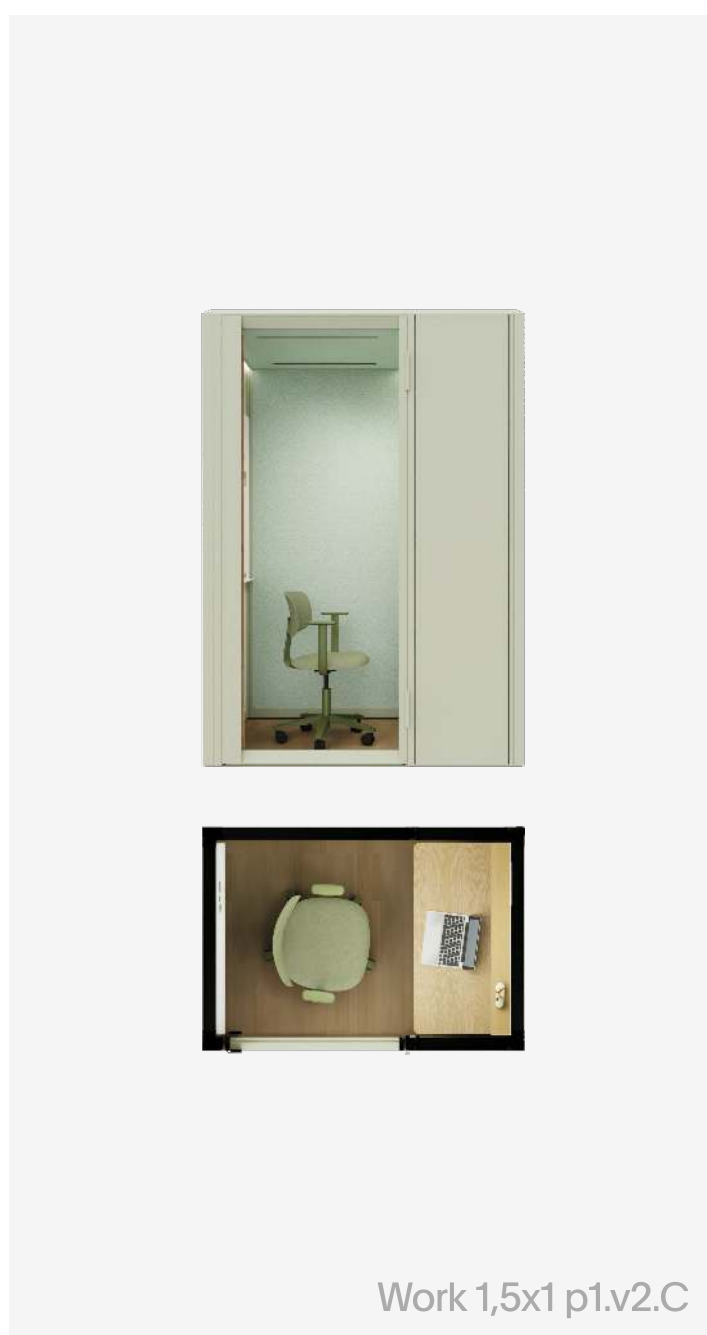

Examples of Mute Modular Pods: 1,5x1

Dimensions:

Width
1655 mm

Length
1150 mm

Height
2380 / 2250 mm

Function
Focused Work

Capacity
1 per

Acoustics*
Class A, ISO 23351-1

Function
Focused Work

Capacity
1 per

Acoustics*
Class B, ISO 23351-1

Function
Video Call

Capacity
1 per

Acoustics*
Class A, ISO 23351-1

Function
Phone Call

Capacity
1 per

Acoustics*
Class A, ISO 23351-1

* The acoustic class depends on the types of wall modules used and their configuration.

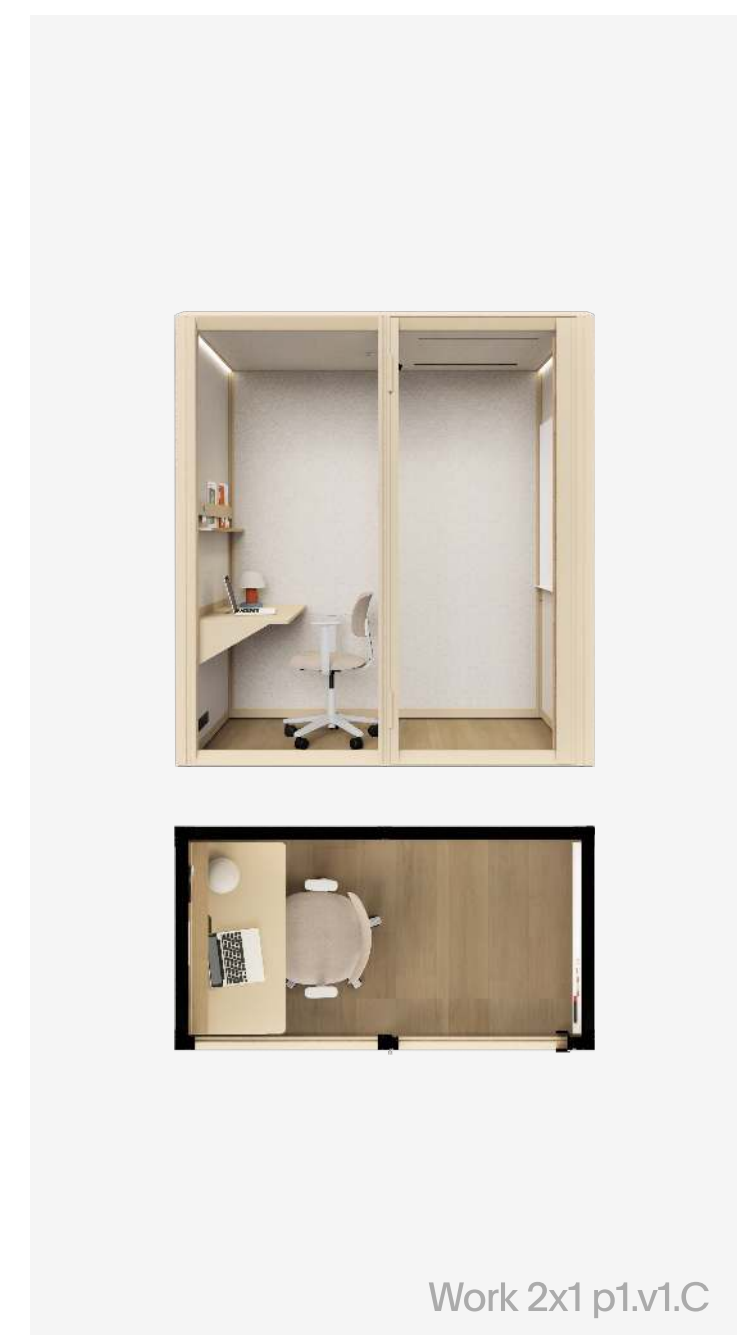

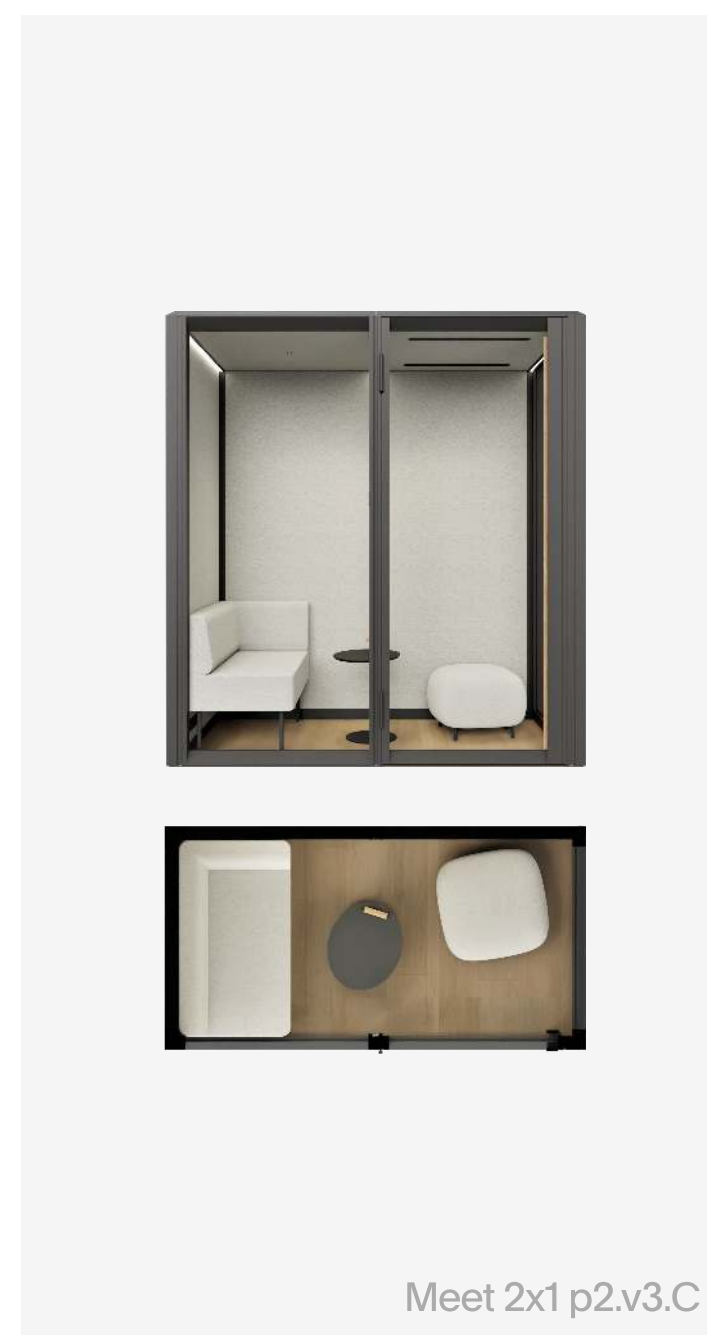

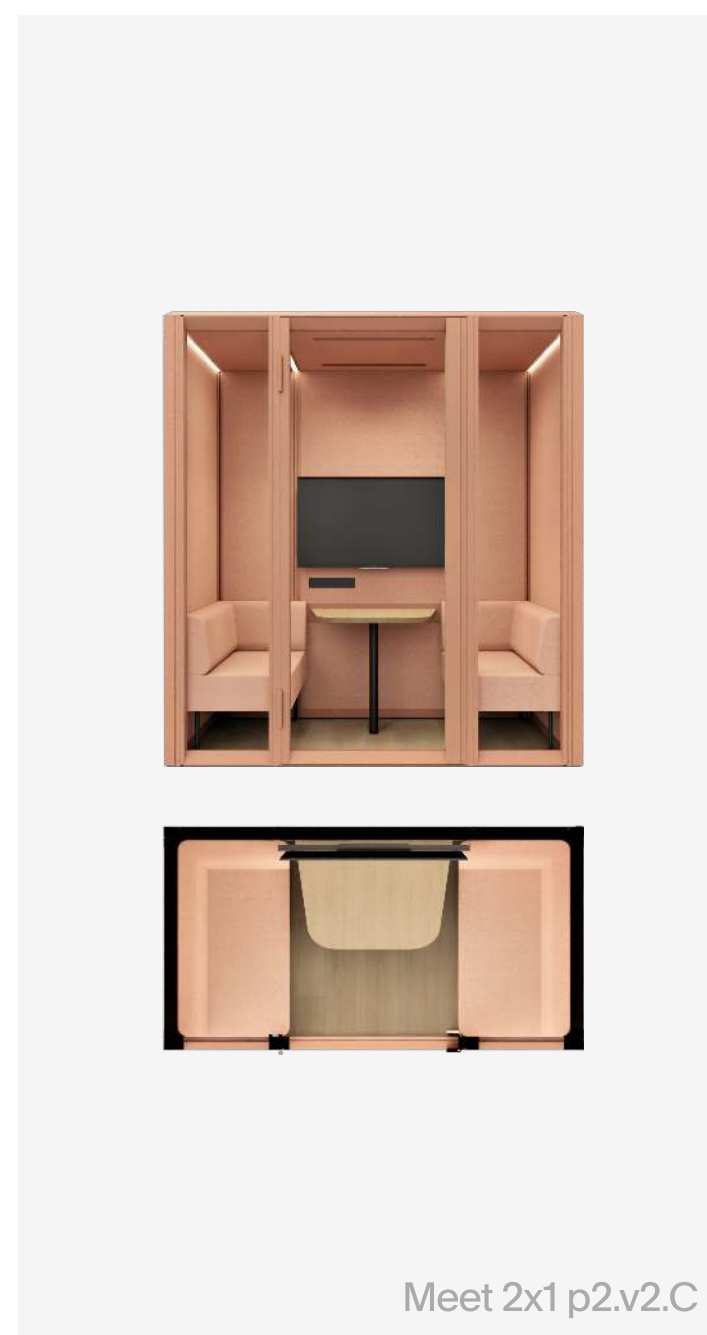

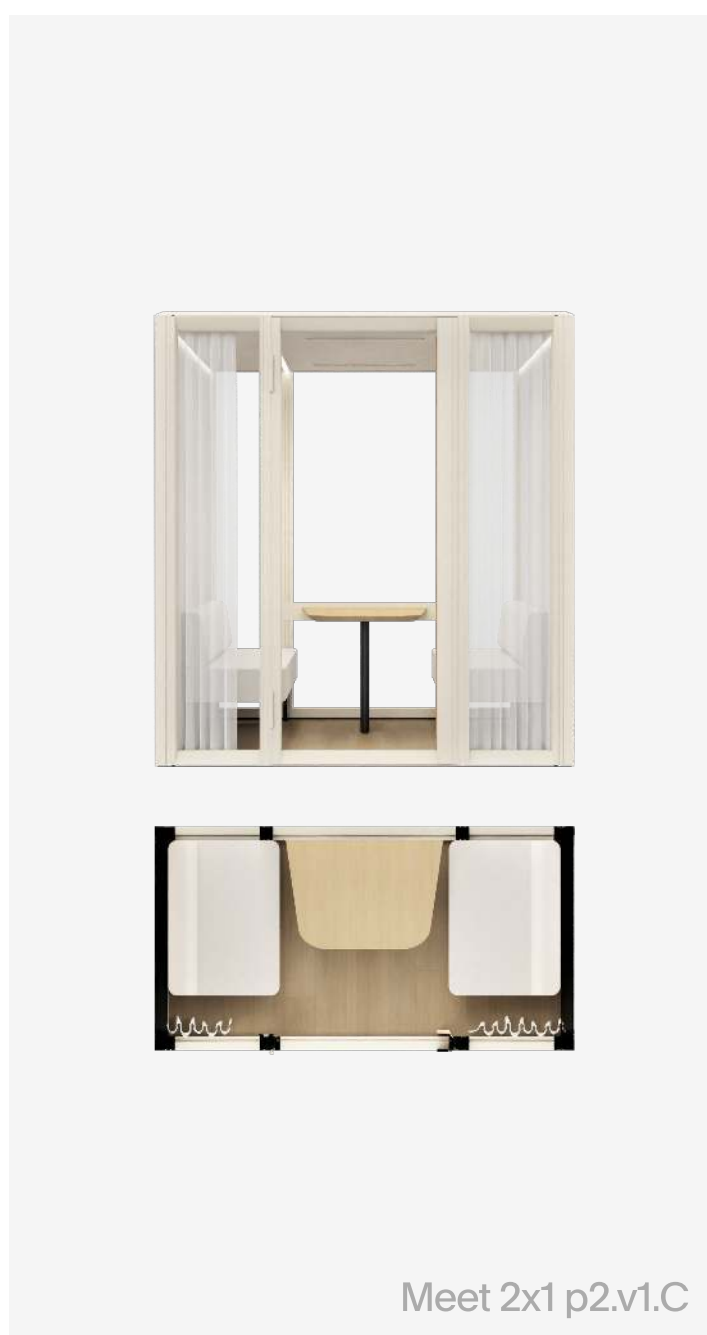

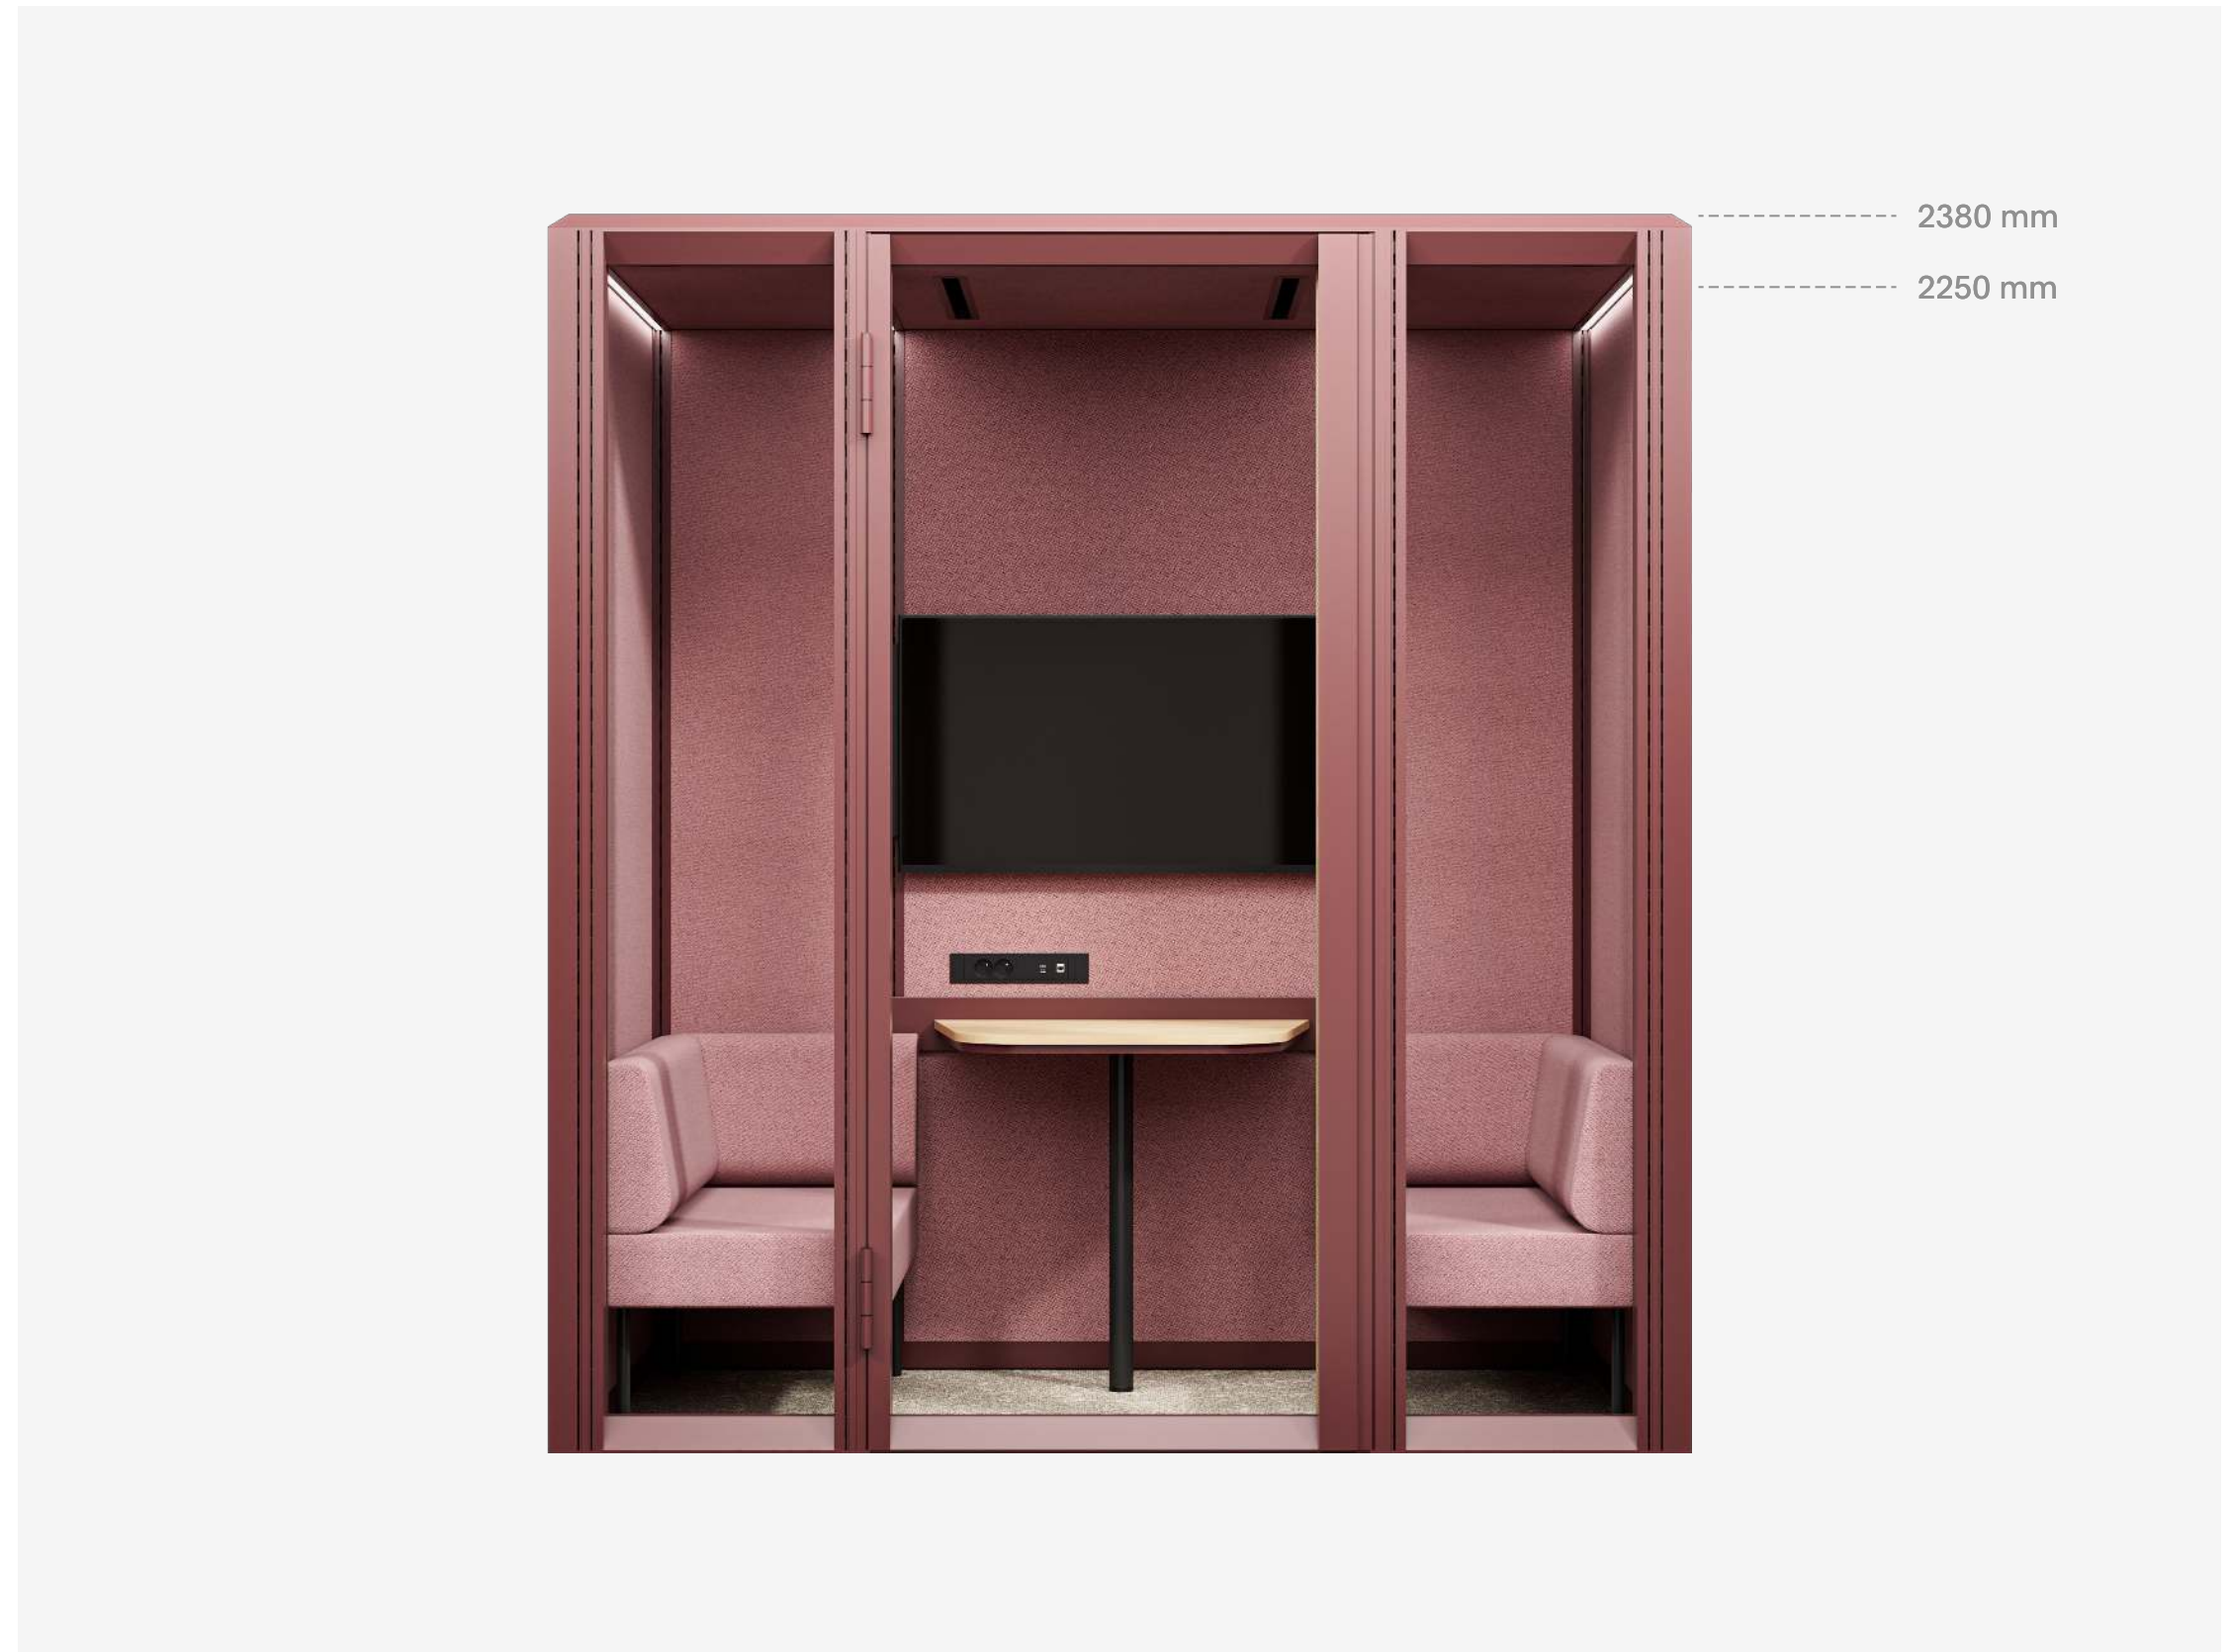

Examples of Mute Modular Pods: 2x1

Dimensions:

Width
2160 mm

Length
1150 mm

Height
2380 / 2250 mm

Function
Meeting

Capacity
2 ppl

Acoustics*
Class B, ISO 23351-1

Function
Video Call

Capacity
2 ppl

Acoustics*
Class A, ISO 23351-1

Function
Informal Meeting

Capacity
2 ppl

Acoustics*
Class B, ISO 23351-1

Function
Focused Work

Capacity
1 per

Acoustics*
Class A, ISO 23351-1

* The acoustic class depends on the types of wall modules used and their configuration.

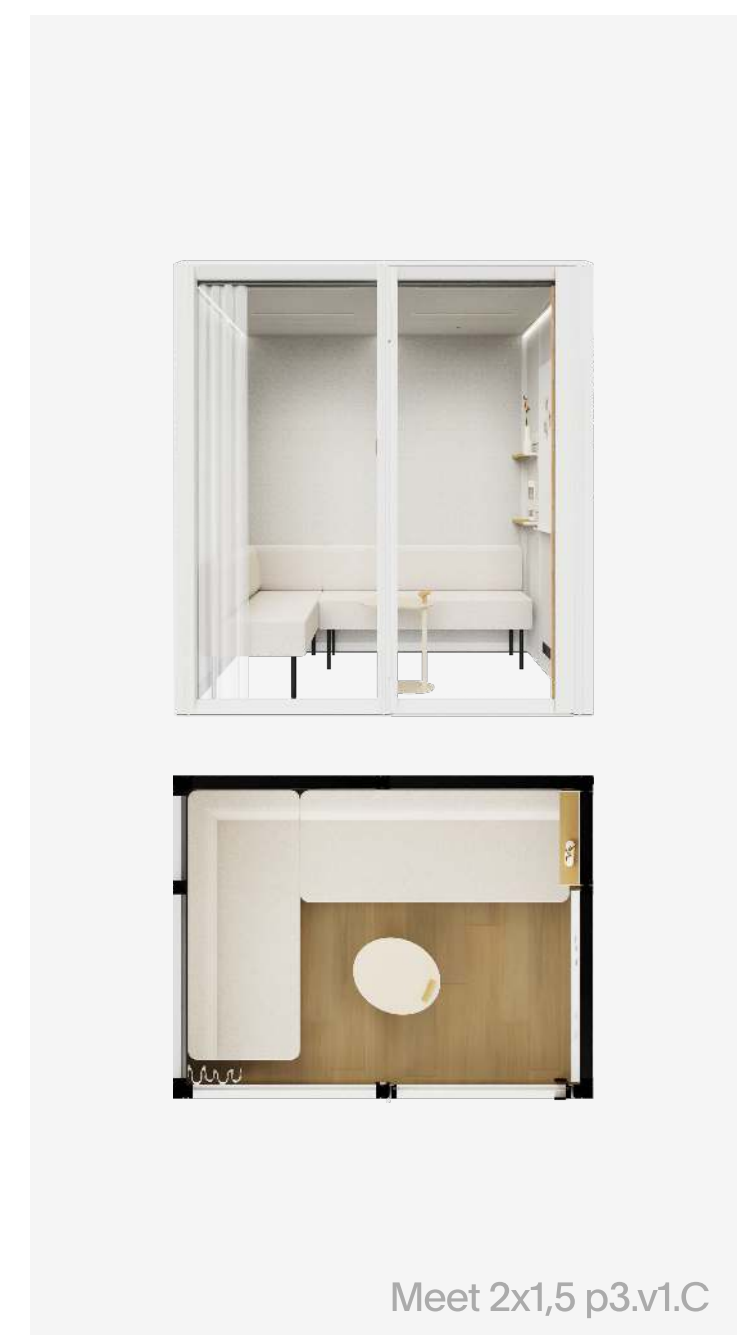

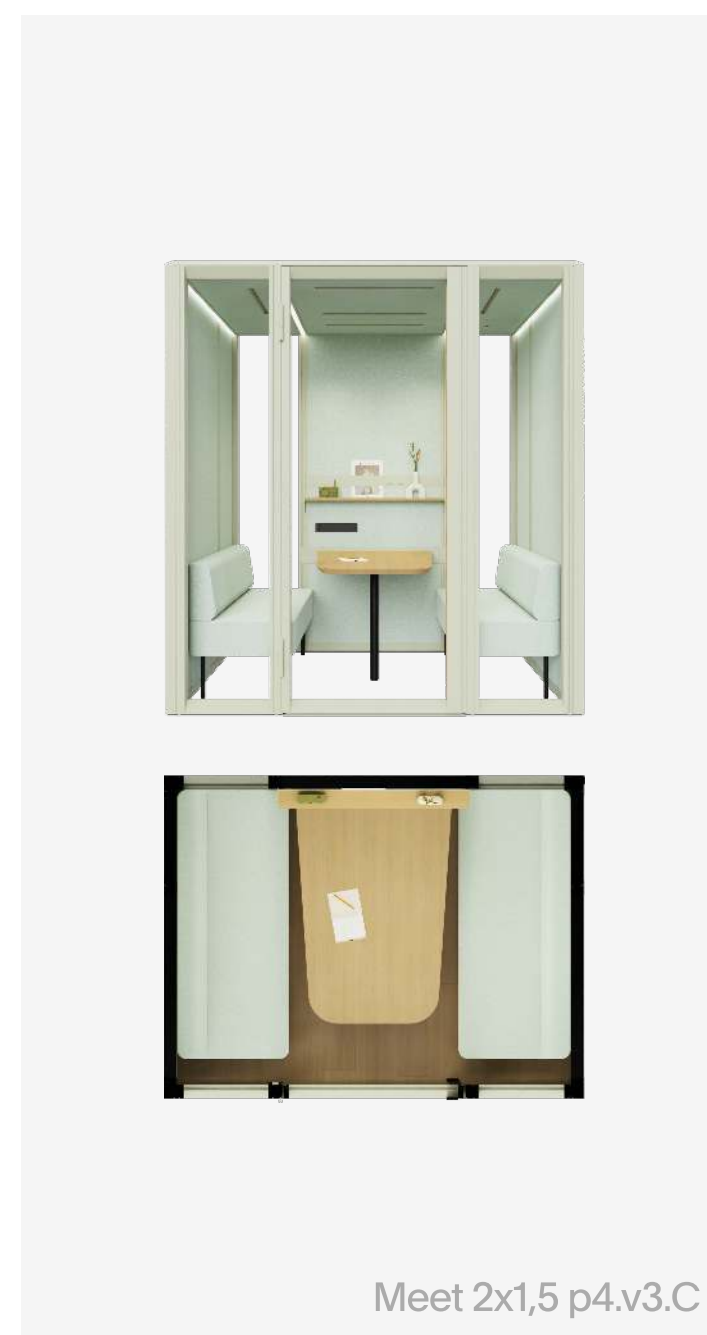

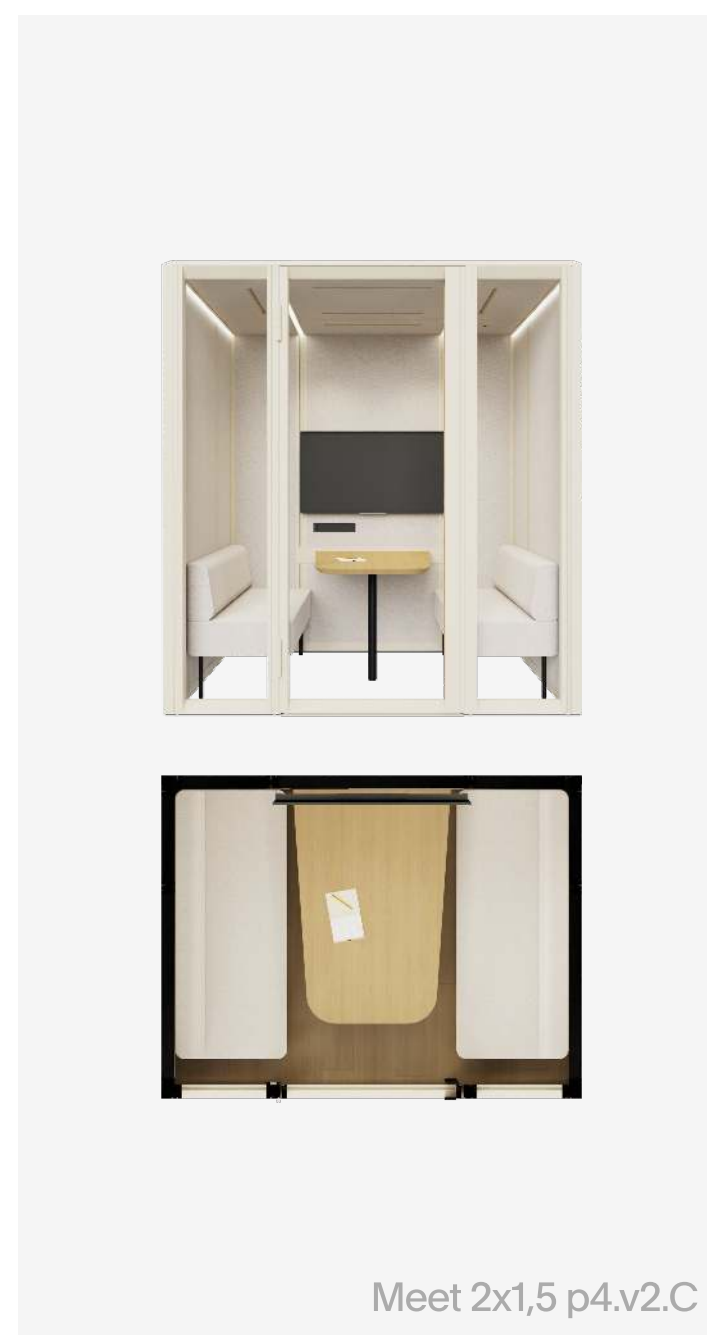

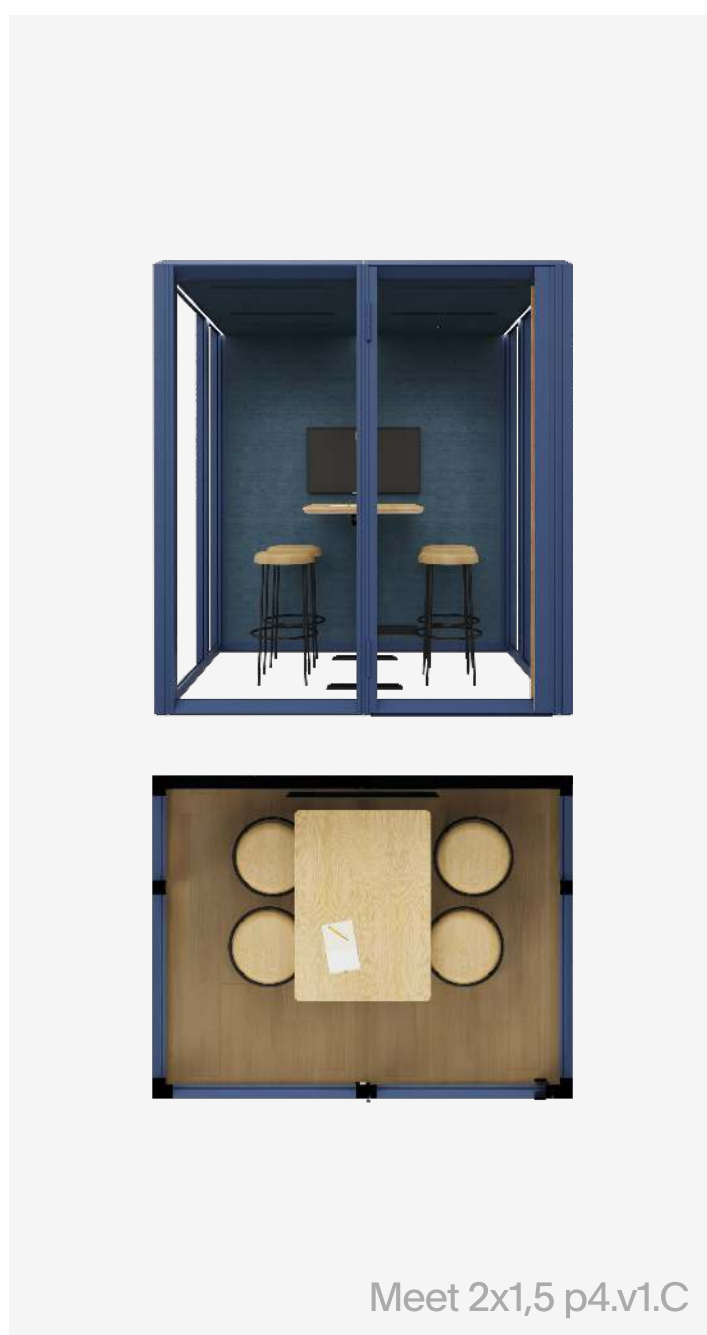

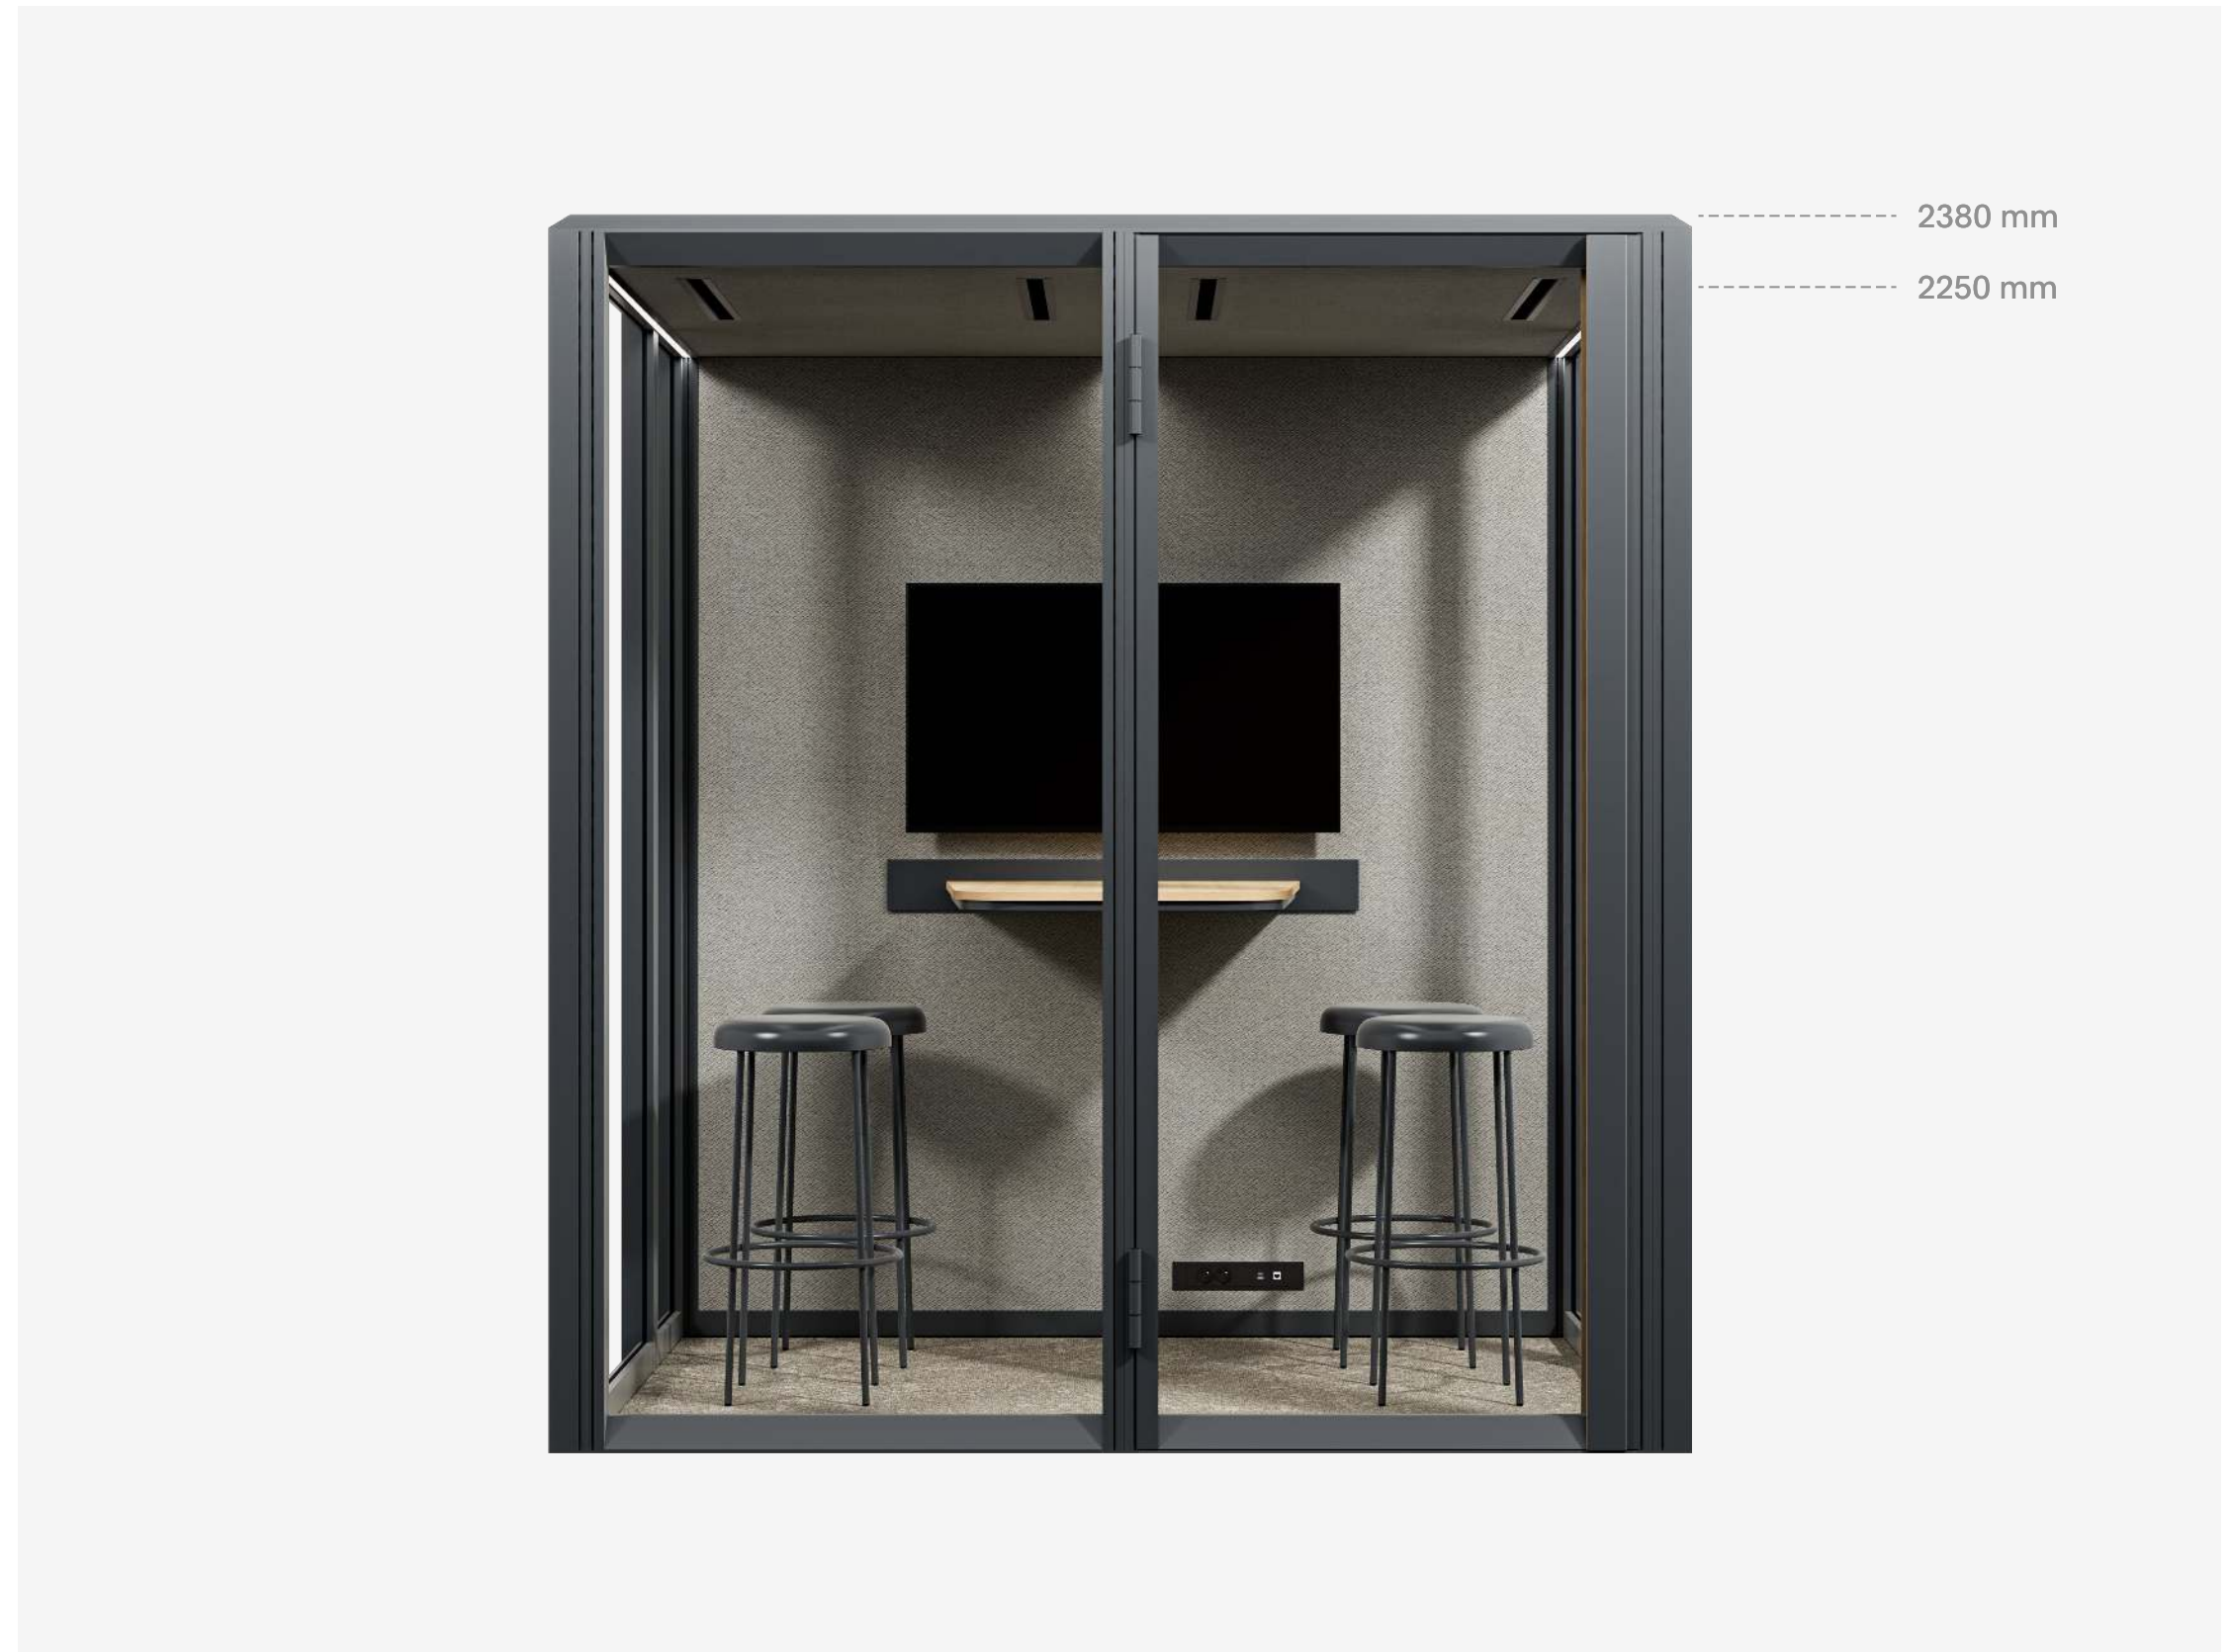

Examples of Mute Modular Pods: 2x1,5

Dimensions:

Width
2160 mm

Length
1655 mm

Height
2380 / 2250 mm

Function
Collaboration

Capacity
4 ppl

Acoustics*
Class B, ISO 23351-1

Function
Video Meeting

Capacity
4 ppl

Acoustics*
Class A, ISO 23351-1

Function
Meeting

Capacity
4 ppl

Acoustics*
Class B, ISO 23351-1

Function
Brainstorm

Capacity
3-4 ppl

Acoustics*
Class B, ISO 23351-1

* The acoustic class depends on the types of wall modules used and their configuration.

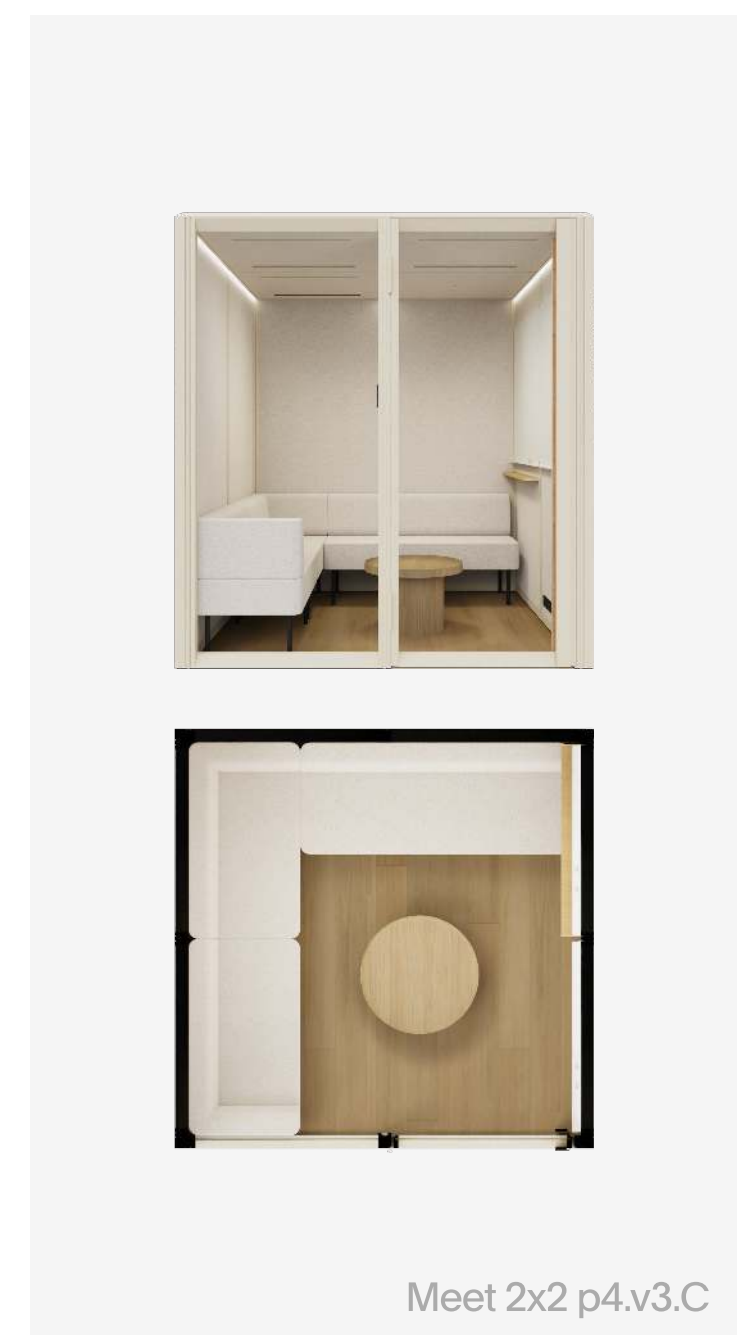

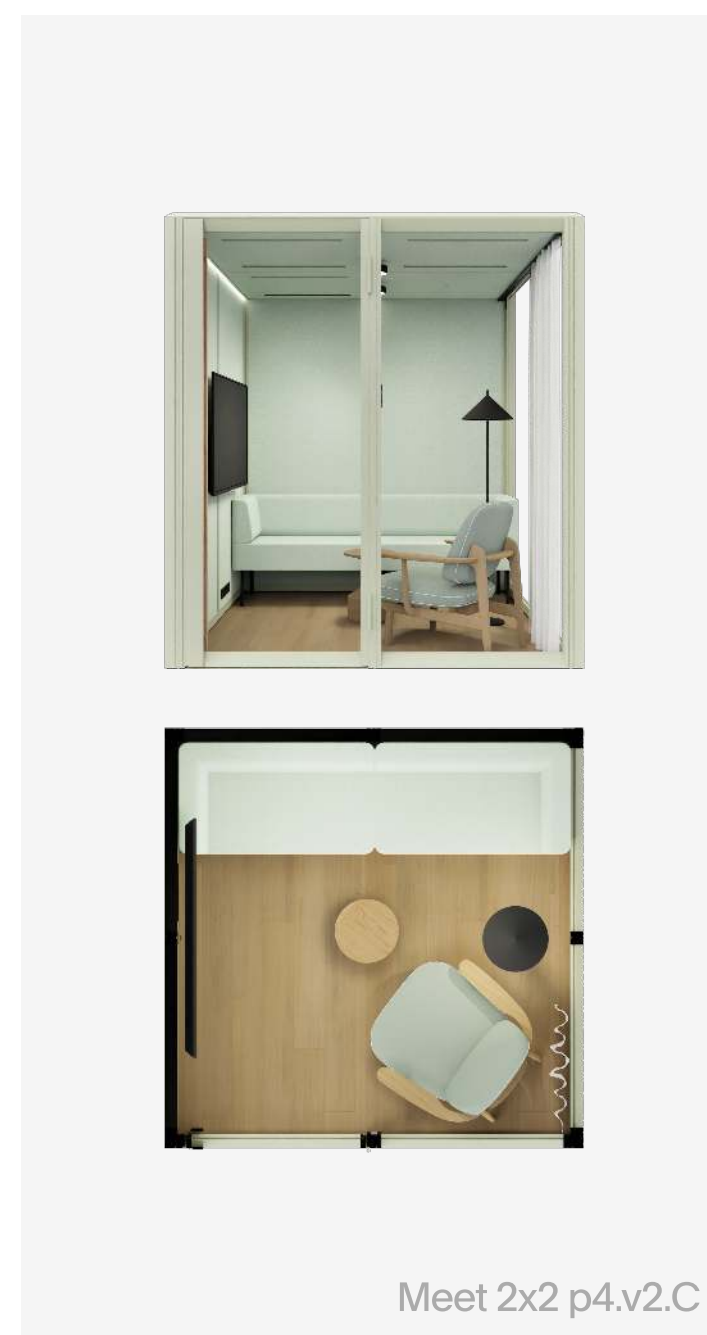

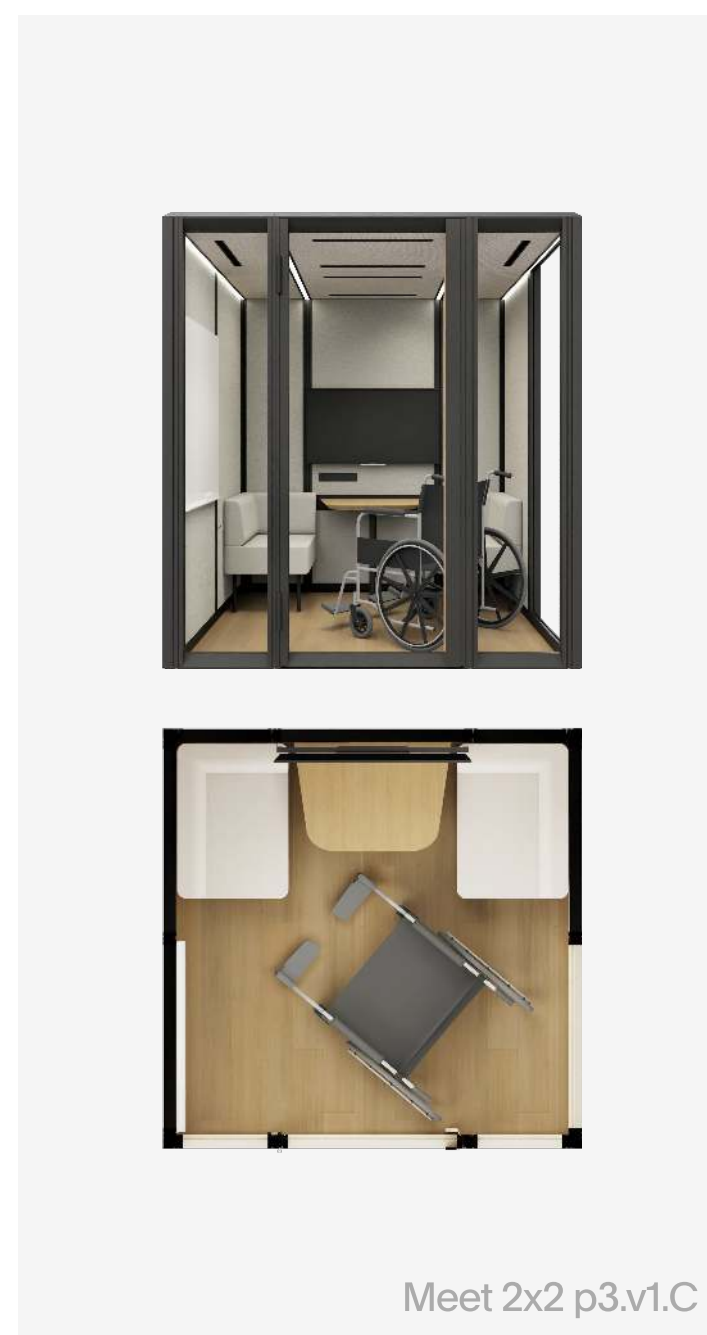

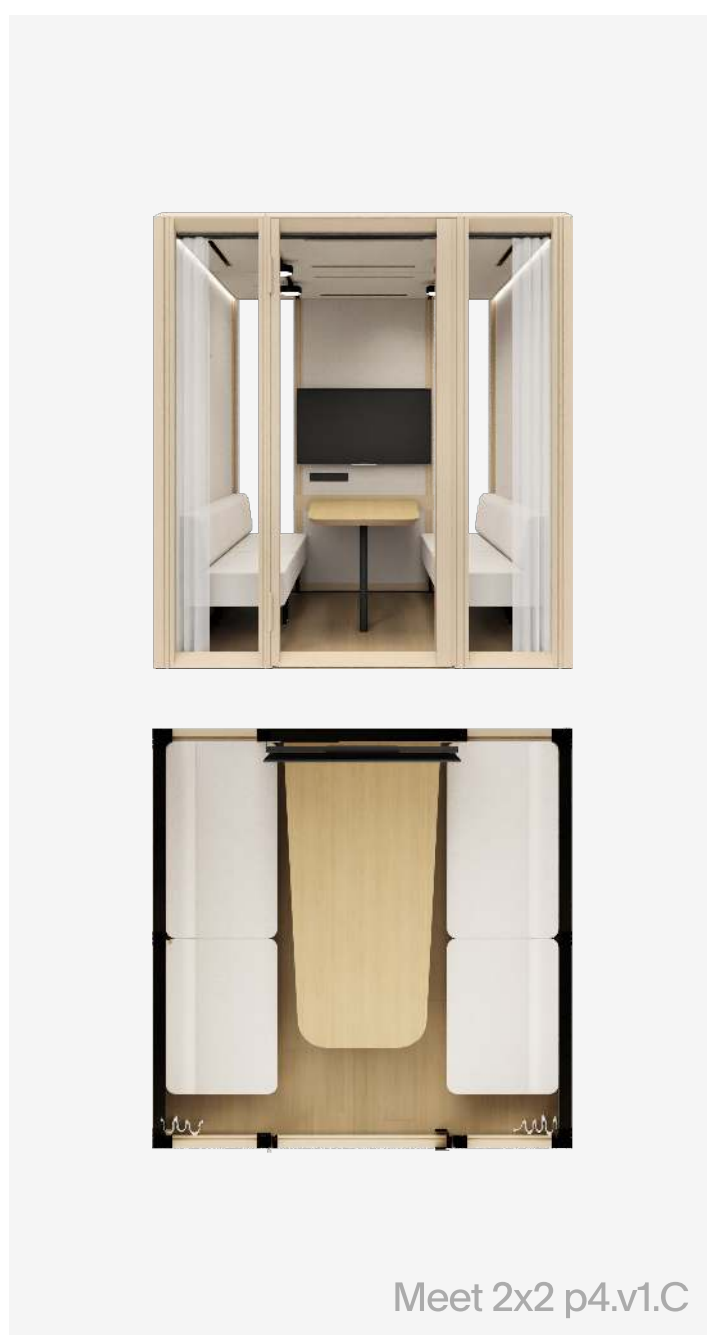

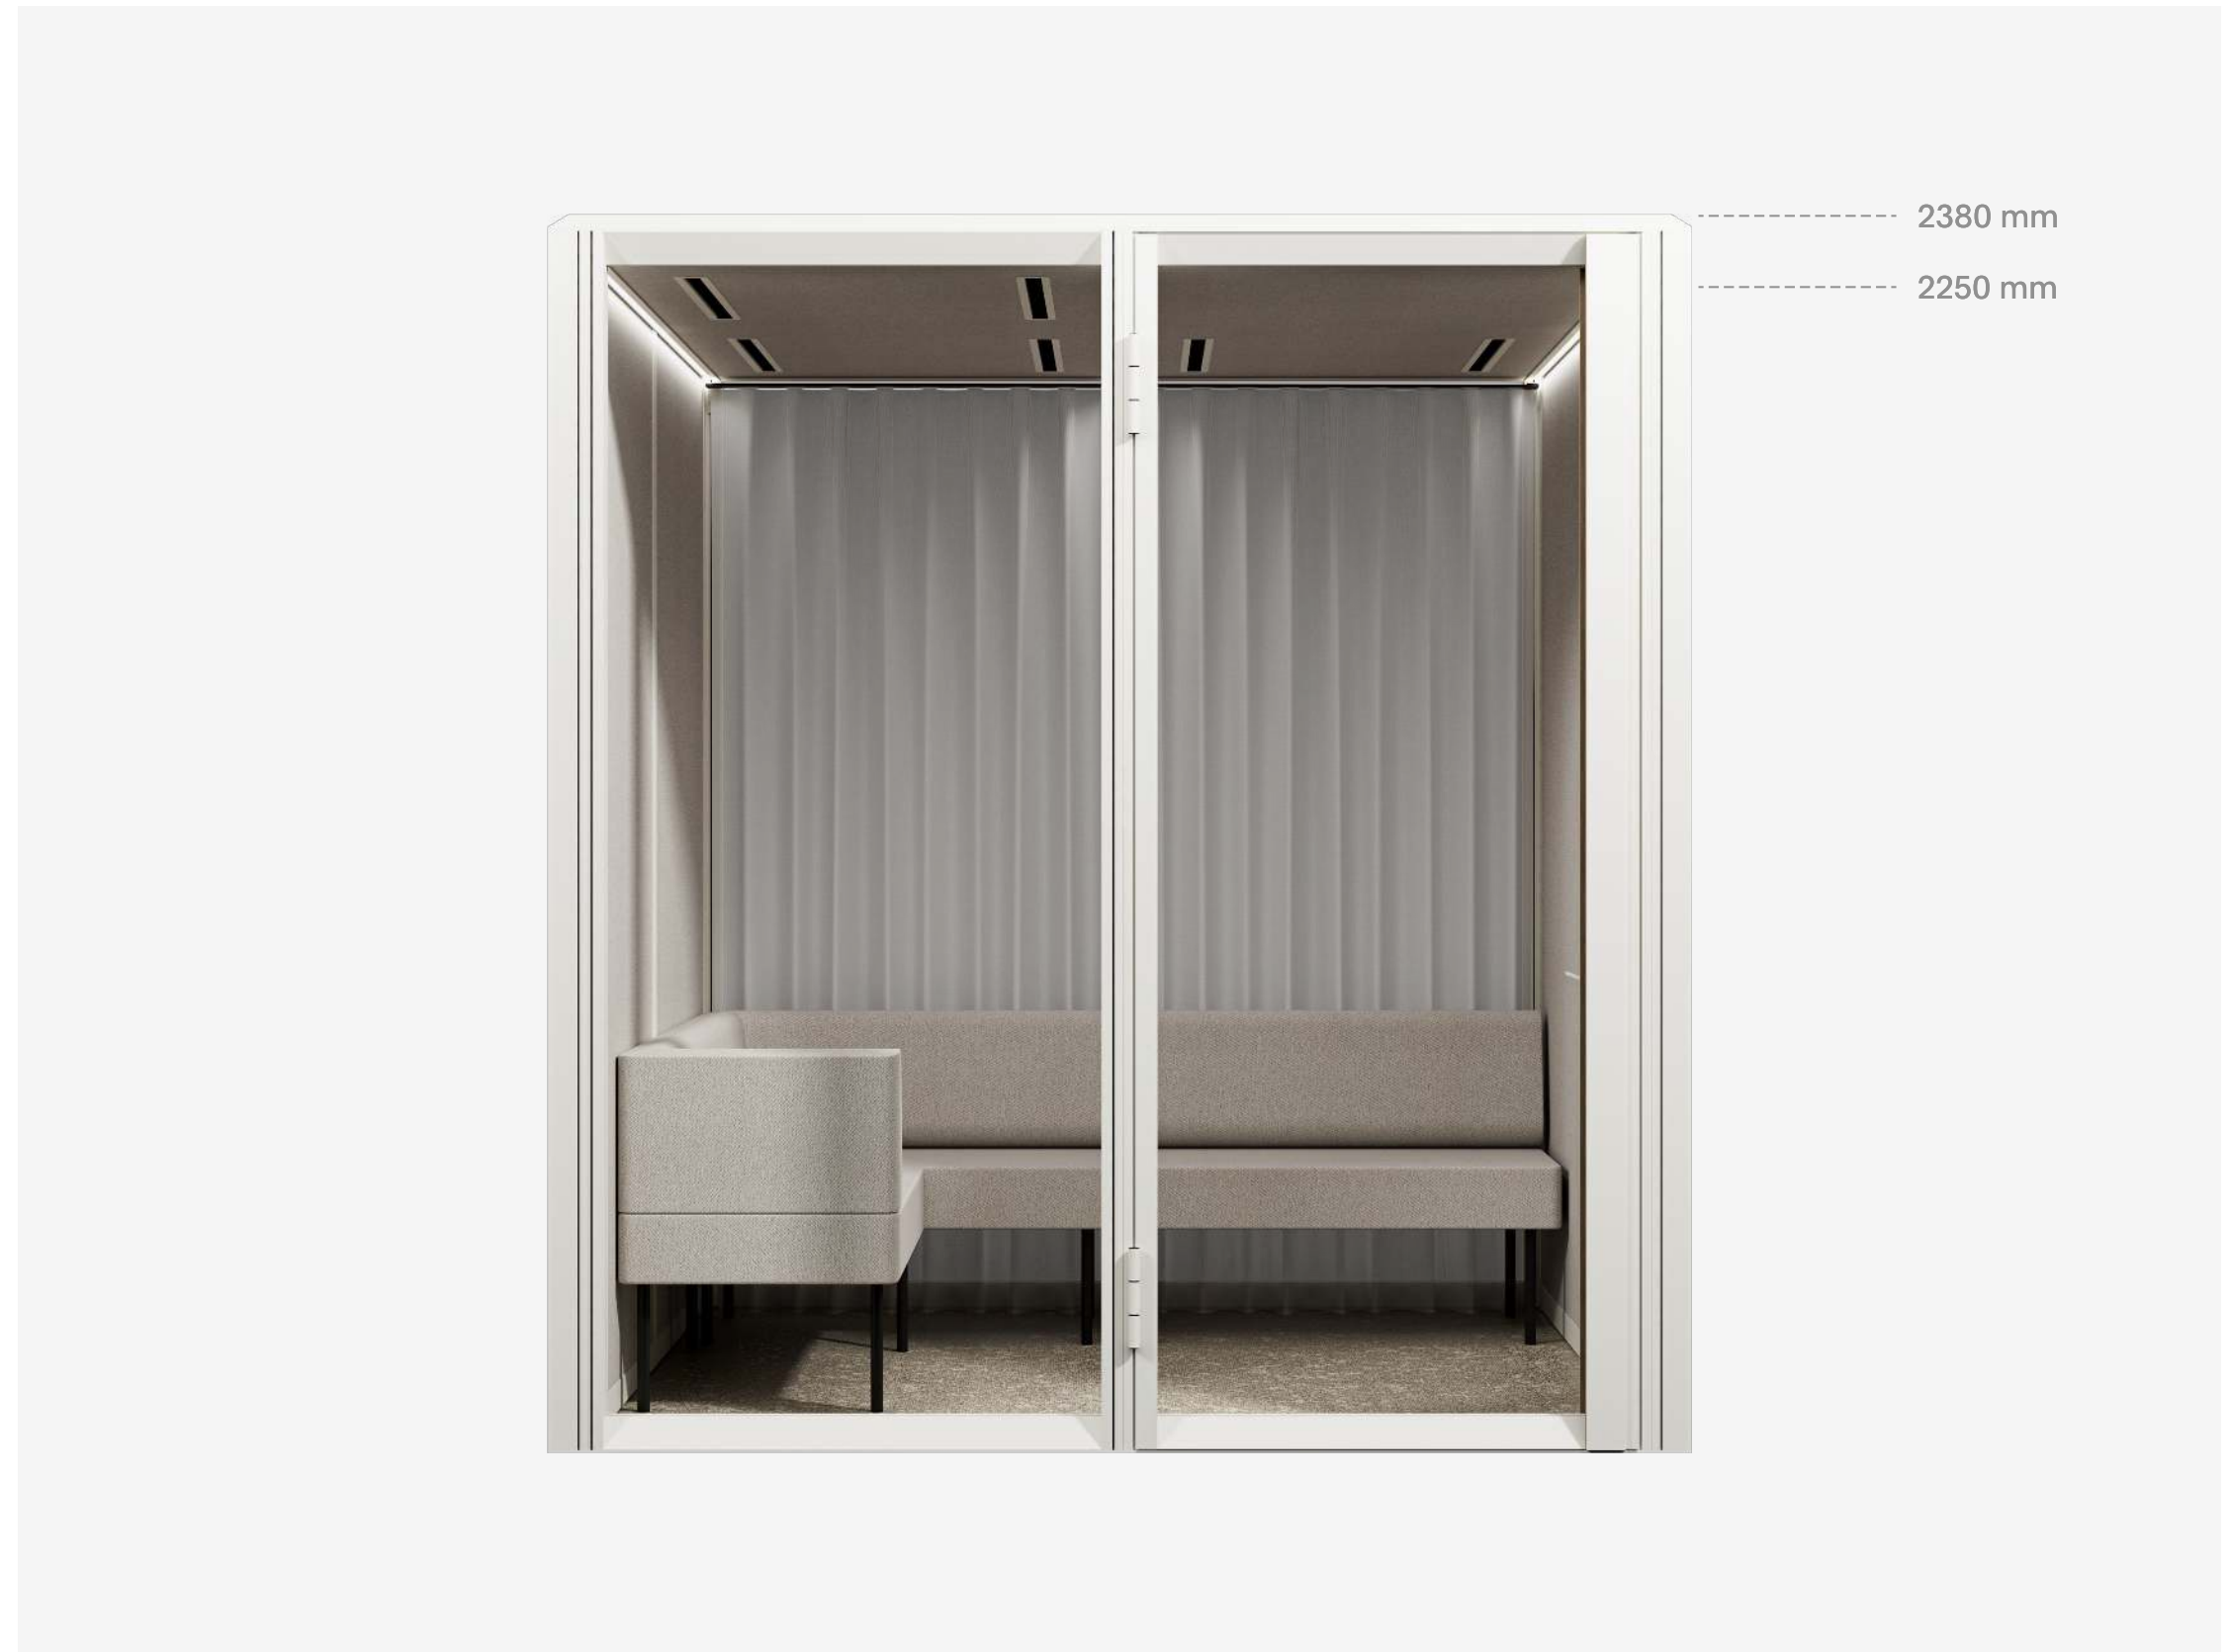

Examples of Mute Modular Pods: 2x2

Dimensions:

Width
2160 mm

Length
2160 mm

Height
2380 / 2250 mm

Function
Video Meeting

Capacity
4 ppl

Acoustics*
Class B, ISO 23351-1

Function
Video Meeting

Capacity
3 ppl

Acoustics*
Class B, ISO 23351-1

Function
Informal Meeting

Capacity
4 ppl

Acoustics*
Class B, ISO 23351-1

Function
Brainstorm

Capacity
4-5 ppl

Acoustics*
Class A, ISO 23351-1

* The acoustic class depends on the types of wall modules used and their configuration.

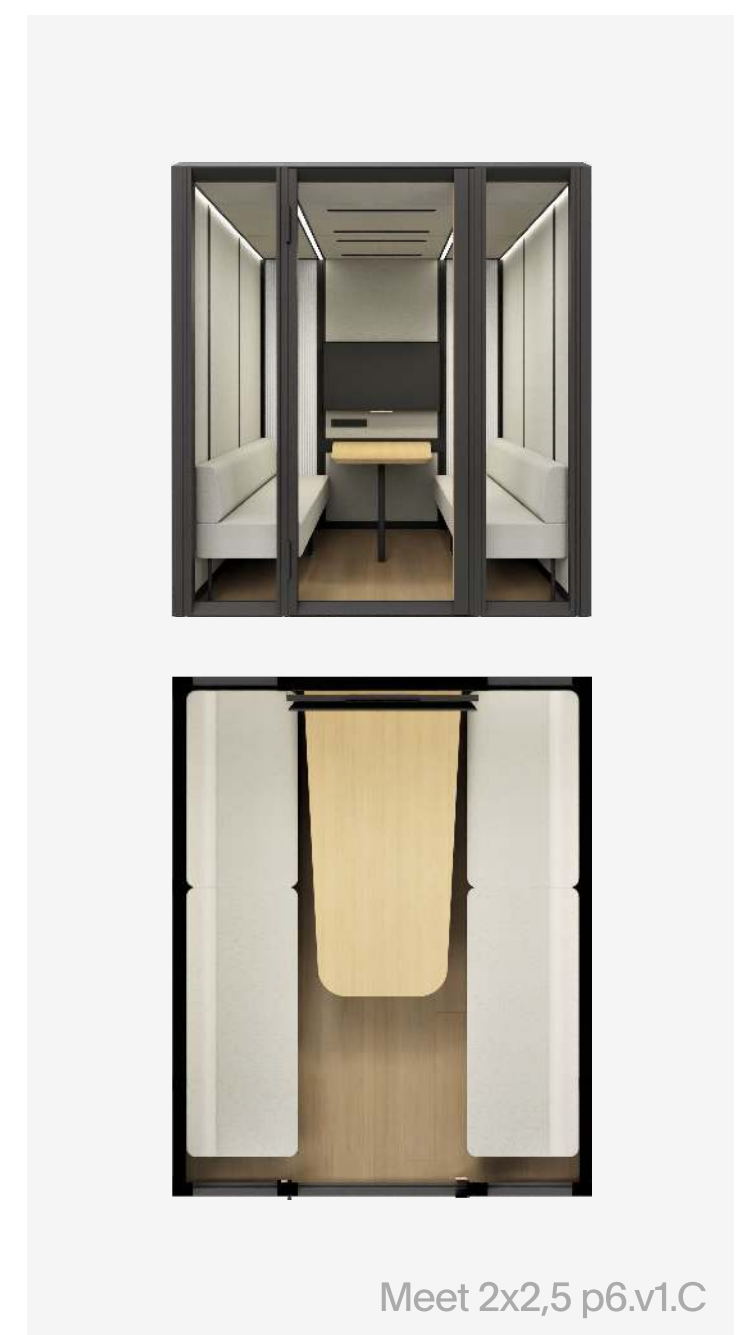

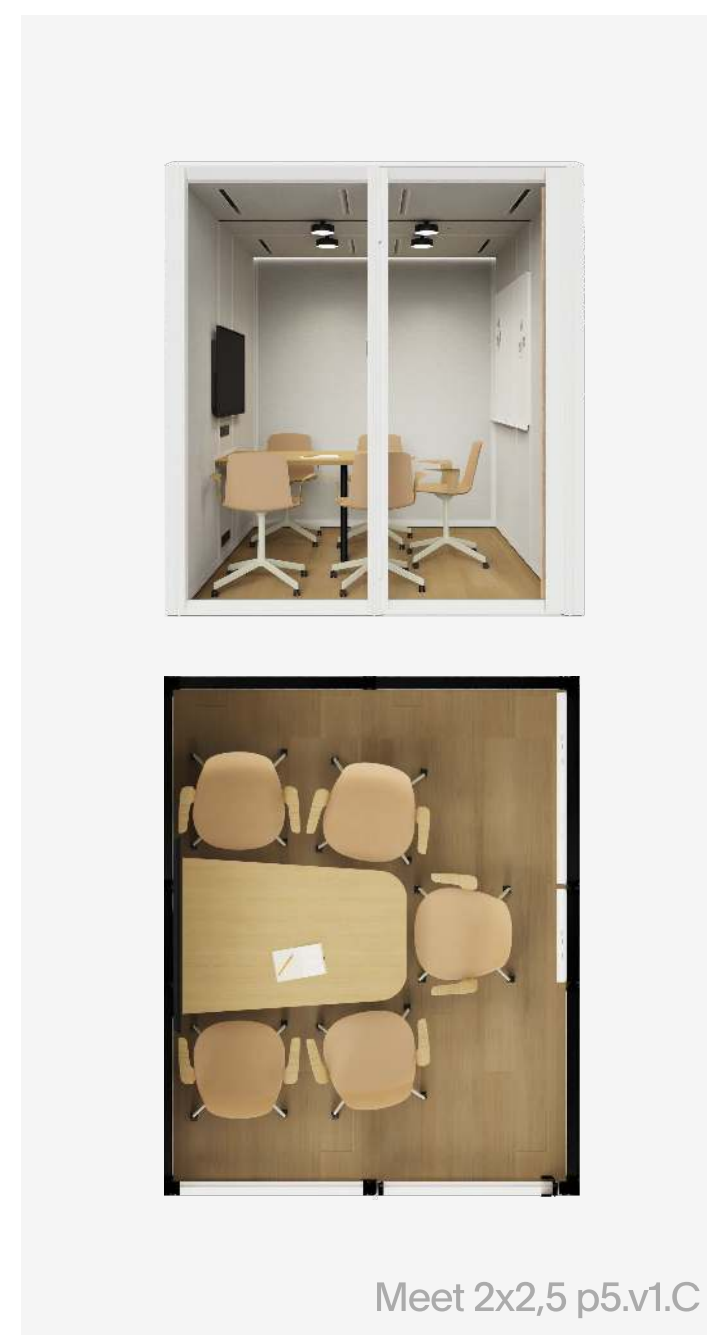

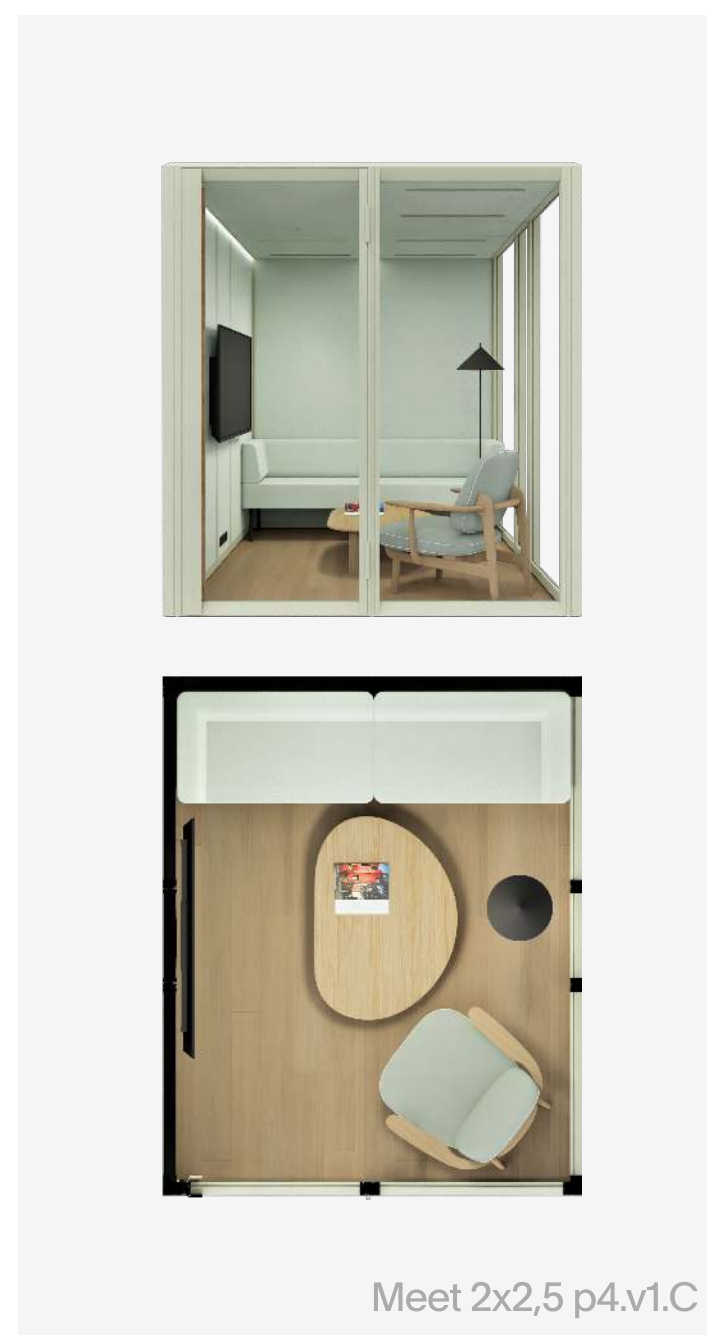

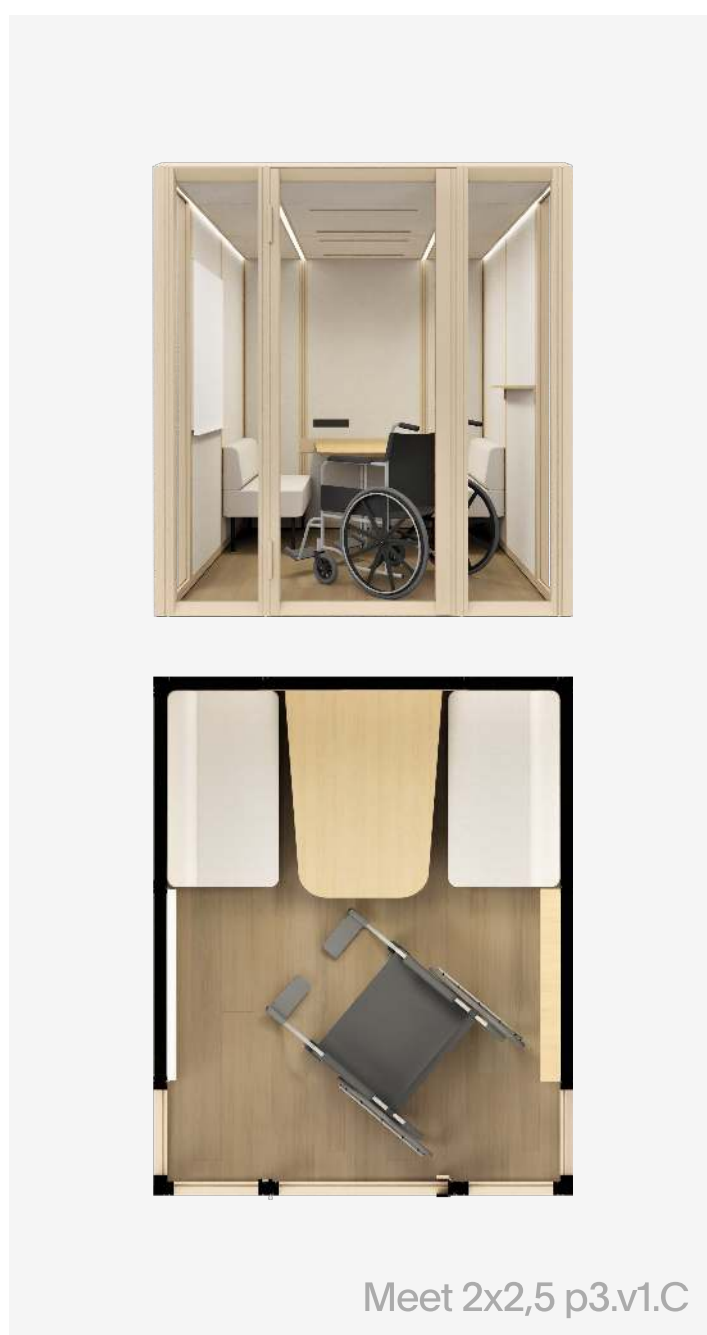

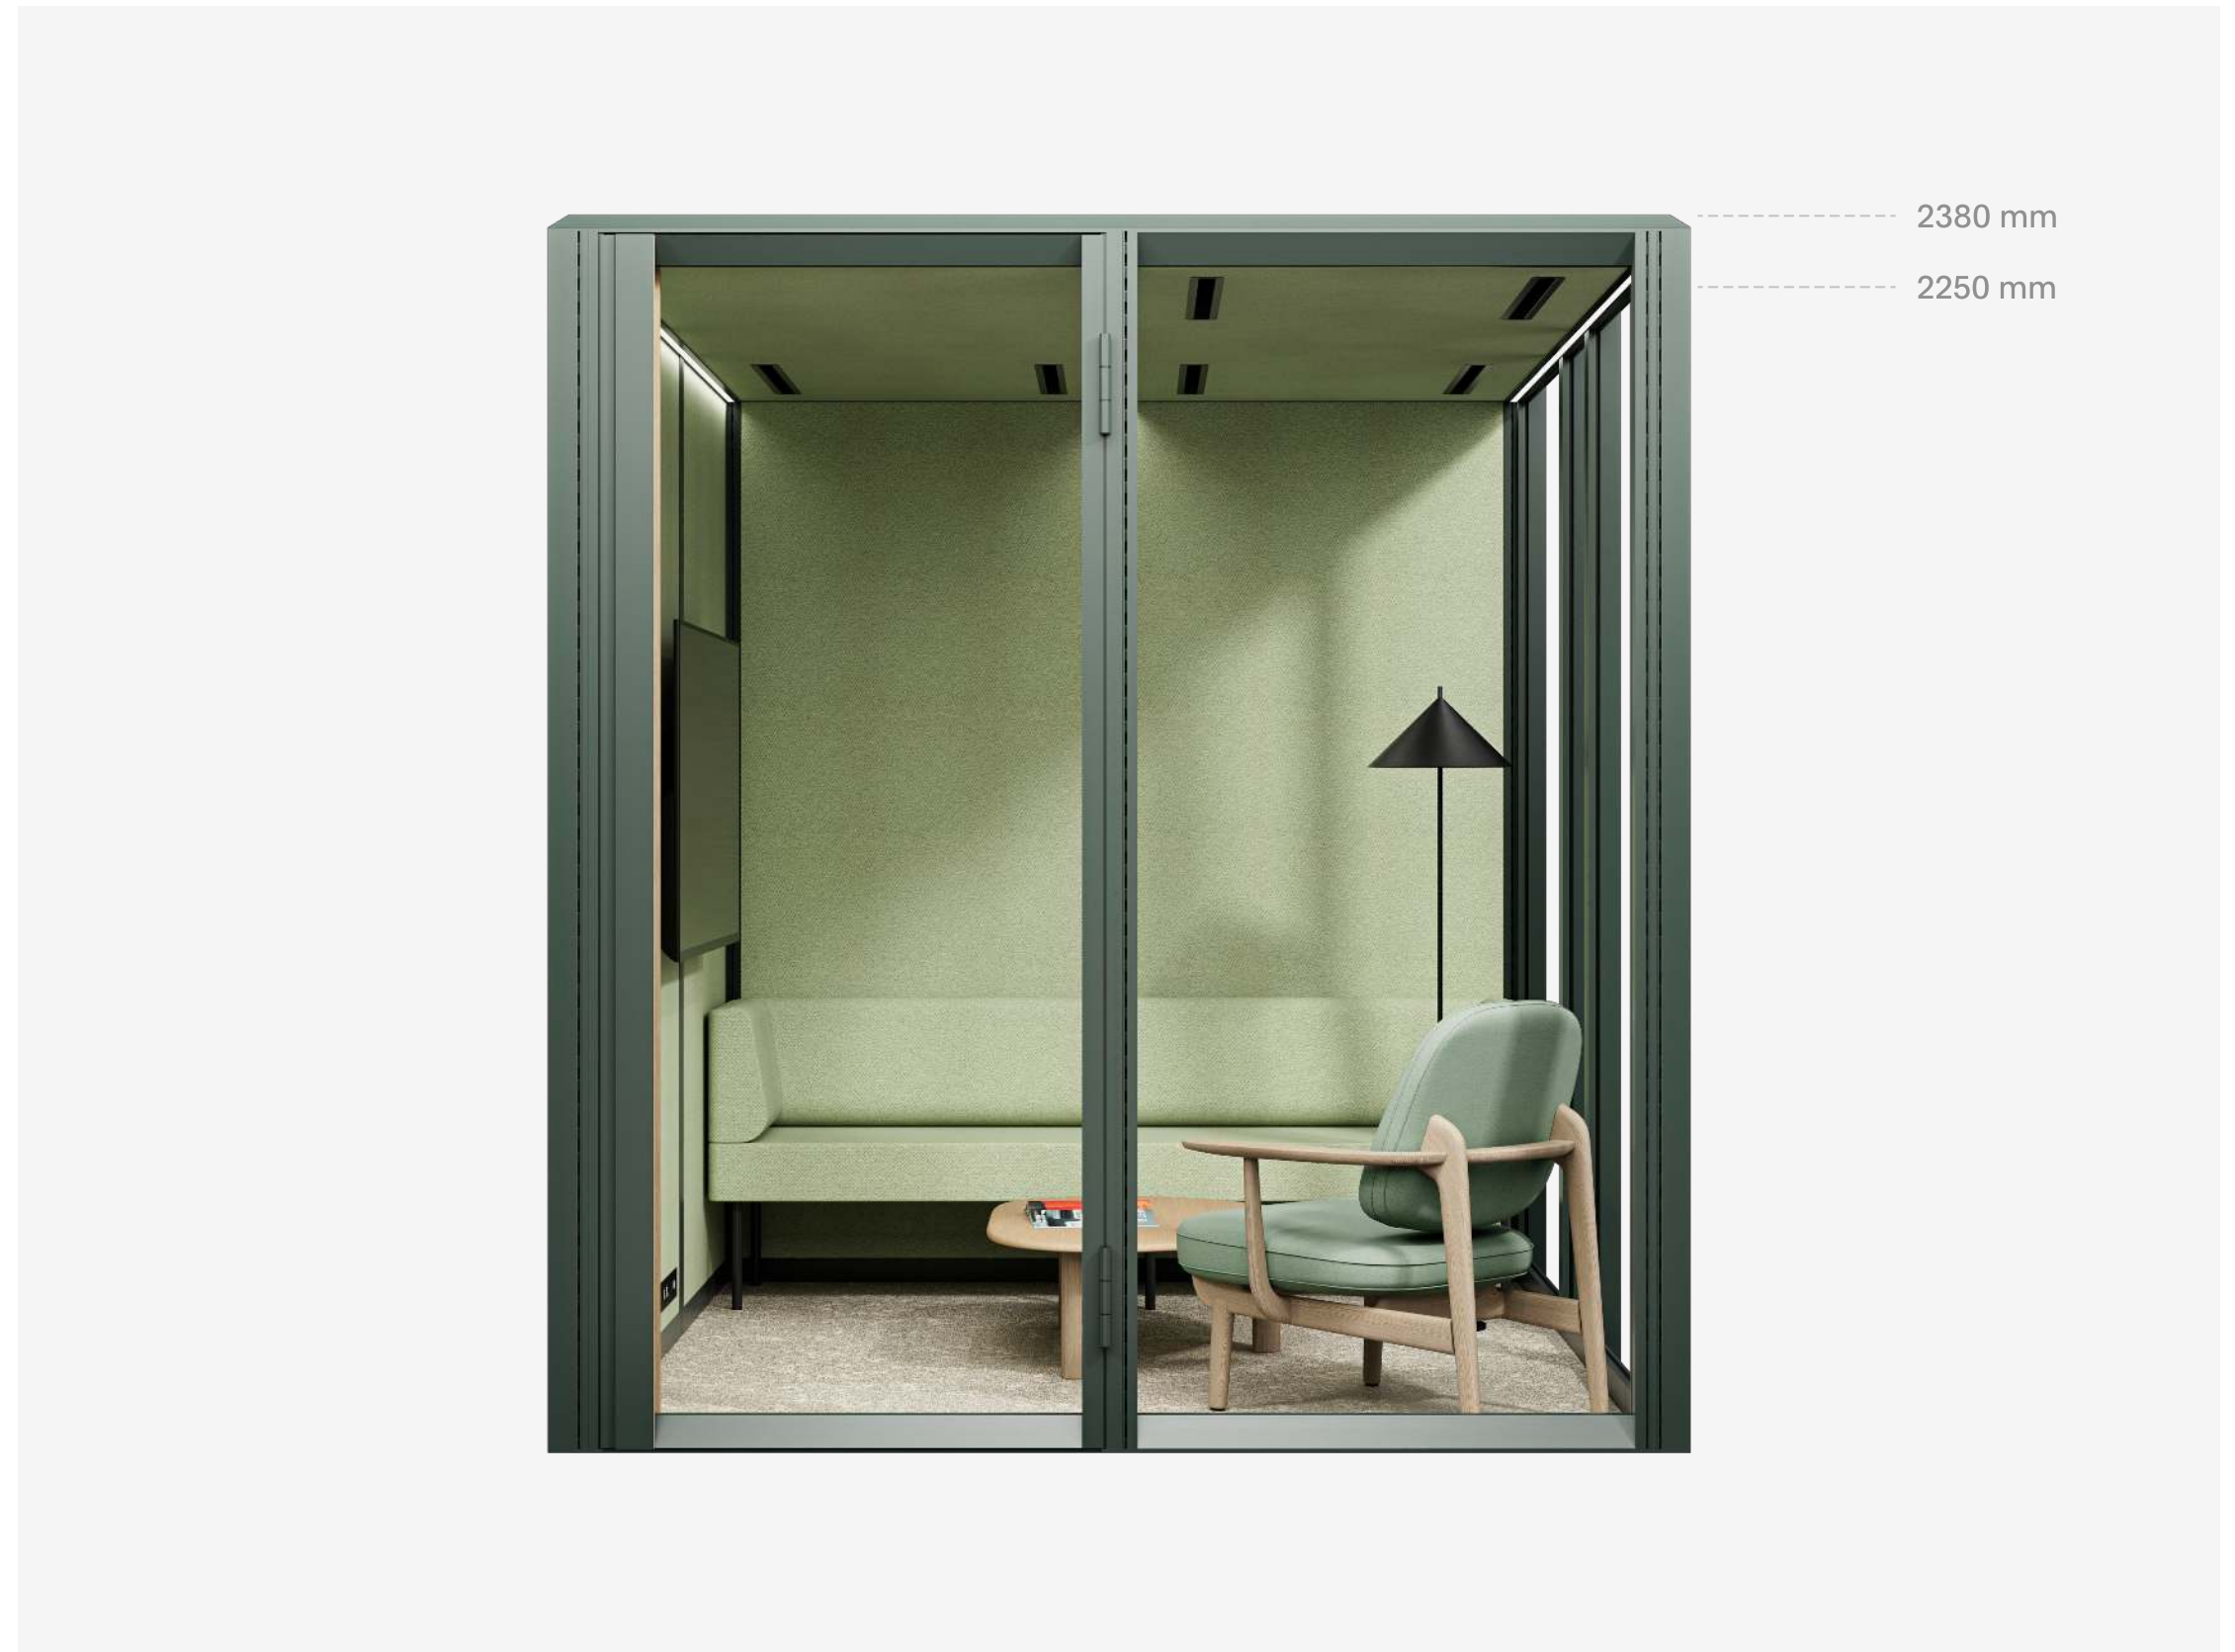

Examples of Mute Modular Pods: 2x2,5

Dimensions:

Width
2160 mm

Length
2665 mm

Height
2380 / 2250 mm

Function
Meeting

Capacity
3 ppl

Acoustics*
Class A, ISO 23351-1

Function
Informal Meeting

Capacity
4 ppl

Acoustics*
Class B, ISO 23351-1

Function
Video Meeting

Capacity
5 ppl

Acoustics*
Class A, ISO 23351-1

Function
Video Meeting

Capacity
6-8 ppl

Acoustics*
Class B, ISO 23351-1

* The acoustic class depends on the types of wall modules used and their configuration.
